PROFESSIONAL SUMMARY

Motivated BTech student with strong expertise in coding, problem-solving, and MERN stack development, demonstrated through impactful projects like underwater debris detection, EV downtime prediction, a university result portal, and billing & subscription systems. Skilled in designing and building scalable, full-stack web applications with a solid foundation in data structures and algorithms. Seeking an entry-level software developer role to apply technical skills and deliver real-world solutions.

EDUCATION

Present

Bachelor of Technology in Computer Science

SRM Institute of Science and Technology

SKILLS

Programming

- C, Java, JavaScript, Python

Backend

- Node.js, Express.js, MongoDB, RESTful APIs

Frontend

- HTML, CSS, React.js

Other

- Problem-solving, Git & GitHub (version control)

PROJECTS

Underwater Debris Detection

- Developed an intelligent system to detect underwater waste using image processing/ML techniques. Helps in identifying marine pollution efficiently for environmental monitoring.
- **Tech:** Python, OpenCV, Machine Learning

EV Downtime Prediction

- Built a predictive model to estimate electric vehicle downtime based on operational data. Enables proactive maintenance and reduces unexpected failures.
- **Tech:** Python, Machine Learning, Data Analysis

University Result Portal

- Designed and developed a web-based portal for managing and publishing student results with secure access and easy navigation. Improves efficiency and transparency in academic result management.
- **Tech:** MERN Stack (MongoDB, Express, React, Node.js)

Billing & Subscription Management System

- Created a full-stack system to manage user subscriptions, billing cycles, and payment tracking. Streamlines business operations with automated and organized workflows.
- **Tech:** MERN Stack (MongoDB, Express, React, Node.js)

LANGUAGES

English	Native speaker
Hindi	Native speaker
German	Conversational

ACHIEVEMENTS

- Smart India Hackathon: Participated in SIH and reached Round 2
- Certification in Data Analytics by Deloitte
